Mr John Hobbs
33 Sandyhurst Lane
Ashford
Kent TN25 4NS

Dear Mr Hobbs

A20 j/w Sandyhurst Lane, Ashford

I refer to your letter dated 18 February 2013, requesting an update on improvements at this junction.

Following earlier consultation, we are now finalising a revised design, with the intention of firming up costs and an amended proposal with which to present to the general public.

The general intention of the improvements is to highlight the junction better from each direction on the A20, with additional static and interactive 'flashing' signage. We intend to re-distribute the plans to residents, members and parish councils, followed by scheme installation, as early as practicable in the new financial year. The required funding will thus be transferred from this current financial year to 2013/14.

Yours sincerely

Steve Darling
Traffic Engineer (Ashford & Swale)
